THIS PRESTO JR. VOICE RECORDER

. . . is now used by hundreds of professional actors for self study and for perfecting their interpretation of new parts. Play directors, particularly those working with amateur actors, have found that Presto personal recordings illustrate the actors' faults in a way they can quickly understand and thus speed up rehearsals and improve the quality of the final performance.

THE PRESTO JR. voice recorder is a small portable instrument that can be carried anywhere and set up for operation in a few minutes time. It is inexpensive and simple to operate yet it makes excellent records of both voice and music and plays them back to you immediately. Also plays sound effects and ordinary phonograph records.

Write for the name of your nearest Presto dealer. He will make a sample record of your voice without charge.
